JOIN WIIN!

www.ctic.org/wiin/newaccount

The first step is making sure you're registered with CTIC's contact system. If you are, please enter your username (email address) and password in the boxes. We'll email you an access code that will allow you to enter information on your project and update your entry whenever you'd like.

If you're not yet part of the CTIC network, please create a new account. Just enter your email address as your username, and create a password. We'll email you confirmation and an access code that will allow you to enter and update information on your project.

ADD YOUR PROJECT

www.ctic.org/WIIN/myaccount/

Please provide the information requested below to access the project information form that will allow you to share your insight with your colleagues on WIIN.

Some tips on entering project information:

- The form will prompt you for information on your project. Please be as specific as you can! The more details you can provide, the more helpful your information will be to other project managers.
- Use terms that will show up easily in searches – commonly used names for BMPs, for instance, or easily recognized acronyms.
- Think about how you'd like your project to be found in a search, and be sure to use those terms.
- Include links to partners or additional resources you think are important. Let's spread the network!
- When you click "Submit" at the end of the form, you'll land on a page with a button that says "Edit This Project." Clicking that button will open up dialogues for uploading photos, presentations and other resources, and information about project partners.

Thank you for sharing your insight.
